

## DYNAMICS & CHAOS

---

---

---

---

---

---

## COMPLEX DYNAMICAL SYSTEM

**complex**  
many parameters required to describe behaviour

**dynamical**  
behaviour subject to lasting changes

---

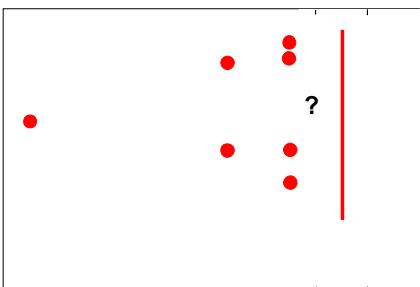

---

## GRAPHICAL TECHNIQUE

$$N_{t+1} = r_{\text{difference}} N_t (K - N_t)$$

plot  $\{N_t, N_{t+1}\}$  pairs

use line  $N_{t+1} = N_t$  to link generations
